

# The Cure, Out Of Mind

I've been up for days  
And I feel like a menagerie  
I'm scratching till I bleed  
And I keep on seeing  
Imaginary lemurs  
In the street  
In the middle of the day  
But as long as I can breathe  
Then I know I'll be okay  
I'll be alright  
I'm out of mind  
I'm out of sight  
I'm out of sight

I've been up for days  
And I feel like a laboratory rat  
Inside a maze  
And I reel in the monotony of  
Screaming  
At the moon  
In the middle of the day  
But as long as I can see it  
Then I know I'll be okay  
I'll be fine  
I'm out of sight  
I'm completely out of mind  
Completely out of mind

Okay  
Alright  
Come and watch me shake tonight  
Mouth wide  
Soft and bright  
Bite my hand and scream  
Okay  
Alright  
Come and watch me break tonight  
Push deep  
Out of sight  
Bite my hand and hold on tight...
