

The Damned, Ignite

twilight comes and the mood's complete

gonna hit the street grab some of that night time beat

my heart is beat beat beating ,like a drum

the night is in my veins we're gonna,have some fun tonight

chorus :

light the fuse i must ignite

i'm gonna set the world alight

light the fuse i must ignite

ii'm gonna set the world alight

i wanna see you burn

i killed the cigarette, i killed the light

i'm killin' time the heat kills me on a hot summer night

i'm gonna dream a life, live a dream

hell for leather in my scheme of things tonight

repeat chorus
