## The Damned, Politics

i used to get real bored in class
i don't need no politics to make me dance
no rules, no laws, no regulations
no fashion strips, no race relations
(chorus)
i just wanna run around
i don't wanna settle down
politically fashionable scenes
fascist managers dreams

my politics don't sell clothes and rights don't sell my songs if i vote for something its something its something i can see give me fun not anarchy (chorus)
