

# The Darlings, It's Gone

It's time to lift up this shadow of doubt  
and live the way that we used to  
Just pull those pieces from the dark  
ya reach in  
it's the old you  
My childhood it doesn't last forever  
in this place I'd like to live forever  
since I've felt love it's been forever  
It's gone  
and now it's gone  
Just take my hand and I'll open your eyes  
pull you up to the surface  
No clouded vision darkens your mind or distorts  
our purpose
