

The Darlings, Together We Fight Alone

This war at last
rising up to fast
to face this on my own
Rotted hearts to the core
trying more and more
don't let fear take control
Together we fight alone
Al ah hah hah hone
Filling in the blanks
reconcile with pain
Let these words pull you through
Falling to your knees
terror greed disease
now we take control
Together we fight alone
Al ah hah hah hone
Like a plague
destroy till it's done
taking out your anything anyone
Like a voice
screaming till it's gone
