

# The Darlings, What Lies Below

A dirty face in your pretty world ya don't know me  
I sailed in from the wrong side of the sea  
A crooked grin with weathered skin ya don't know me  
take a ride through the black of night and you'll see  
What lies below  
What lies below  
carried on and untold  
A pretty face full of innocence it means nothing  
raid the village and take the women as slaves  
A pretty face full of innocence it means nothing  
a cap n ball simply shatters your faith  
What lies below  
What lies below  
carried on and untold  
Say a prayer as you're sung to sleep  
and behold the sacred melody  
Say a prayer as you walk the plank  
you've been chosen now hang from the gallows.  
I sit and wait too long to carry on  
I did it all alone I'll carry on
