

The Darlings, What Lies Below

A dirty face in your pretty world ya don't know me
I sailed in from the wrong side of the sea
A crooked grin with weathered skin ya don't know me
take a ride through the black of night and you'll see

What lies below

What lies below

carried on and untold

A pretty face full of innocence it means nothing
raid the village and take the women as slaves

A pretty face full of innocence it means nothing
a cap n ball simply shatters your faith

What lies below

What lies below

carried on and untold

Say a prayer as you're sung to sleep
and behold the sacred melody

Say a prayer as you walk the plank
you've been chosen now hang from the gallows.

I sit and wait too long to carry on

I did it all alone I'll carry on
