

# The Dead South, A Little Devil

I have loved you for some time  
While all those other men wait in line  
I've worn down my own  
No conversation this time please

Then I saw the hole in the sky  
That's when I heard the angel's cry  
All the love that is in her eye  
She just a little devil in disguise  
All the love that is in her eye  
Just a little devil in disguise

It was only in our dreams  
I was there this time don't you, please  
Writings on the wall they did scream  
Your voice is never heard when it's this clean

Then I saw the hole in the sky  
That's when I heard the angel's cry  
All the love that is in her eye  
She just a little devil in disguise  
All the love that is in her eye  
Just a little devil in disguise

So I'll tell you  
How the story goes  
Just lock me up with that bottle  
The father, son, and the ghost  
My heads on fire  
My heart has turned to toast  
I drank too much back then but  
That's how she goes  
That's how she

Then I saw the hole in the sky  
That's when I heard the angel's cry  
All the love that is in her eye  
She just a little devil in disguise  
All the love that is in her eye  
Just a little devil in disguise  
All the love that is in her eye  
Just a little devil in disguise  
All the love that is in her eye  
She's just a little devil in disguise
