

The Delgados, Never Look At the Sun

V1

If you dare
Look up and see whats there
Level your eyes with some surprise
At the truths realized

V2

Now you care
And you will climb for air
With some relief youve found your peace
Are you taking us there
Some cold comfort is waiting somewhere

CHORUS

Stand out
Now we can see weve been found out
How can this be
Weve been hoping and praying
Theres one life worth saving
Cold Out
Happy to be here
Without doubt
Too much to see here
Im hoping and praying
Theres one life worth saving
Its not too late

V3

Trust in us
If you can trust in us
Follow the lead for hearts that bleed
Were a difficult breed

V4

Once youre found
No longer gagged and bound
Whisper to me
I think Im free
And the world will turn round

M8

In between us
There are colours
But theyre hidden from view
In between us
There is silence
But its breaking for you
Some cold comfort will tell us whats true

CHORUS

Stand out
Now we can see weve been found out
How can this be
Weve been hoping and praying
Theres one life worth saving
Cold out
Happy to be here
Without doubt
Too much to see here
Were hoping and praying
Theres one life worth saving

(M8)

CHORUS

Hold out
My own reflection
Ive found out
Less than perfection
Im hoping and praying
Theres one life worth saving
Cold out

Happy to be here
Without doubt
Too much to see here
Im hoping and praying
Theres one life worth saving
