The Derek Trucks Band, Something To Make You

I see the people Starvin' in rags I see my brother Lyin' down with a pain I hear the babies cryin' To their Father God Askin' Him why you lettin' me born into this world Goodbye sorrow's rain I turned around And I looked at you my darlin' If we don't stand together they'll try to make us stand alone

Pre-chorus: It's strange, it's a wonder but it's true Every time I look at you There's something I got to do

Chorus: Something to make you happy Come on just let me know If there's nothing to make you happy Just say the word and I'll go

I see the battle lines Forming slowly I see a silence fall As the winners and the losers take their stand I turned around And I hear you call me darlin' If we don't spread love through the land It'll sure enough be dry

Pre-chorus/chorus
