

The Doobie Brothers, Clear As The Driven Snow

Playin' easy somewhere, shade across my mind
Thoughts that pass I cannot catch, I reach for you and find
That I have learned how not to get burned now
Wind in the tree blows, even the sea knows
That I have learned how, think I can see now
Lookin' through dreams is not what it seems

They handed me the bottle and said drink it 'til it's gone
But now that it's half empty I'm not sure I can go on
Thought I had learned how not to get burned now
Wind in the tree blows, even the sea knows
That I have learned how, think I can see now
Lookin' through dreams

I keep rollin', I keep rollin'
I keep rollin' and I can't stop
Rollin' and I can't stop
It's drivin' me out of my mind
To the truck stop, to the plane hop
To the boat dock and I'm so close
Boat dock and I'm so close
Give me a little more time

Spin me around, turn my head down
Take me down slow, don't let me go
Spin me around, turn my head down
Take me down slow, don't let me go

Gonna quit you, gonna quit you
Gonna quit you, pretty mama
Quit you, hey mama
You know that I ain't got time
Get behind me, get behind me
Get behind me, now bad times
Oh, bad times
There's nothin' in there you can hide

Spin me around, turn my head down
Take me down slow, don't let me go
Spin me around, turn my head down
Take me down slow, don't let
