

The Doobie Brothers, I Can Read Your Mind

Simmons/Okerman/Thompson

Well your love is supernatural
Got a hold on me like I'm hypnotized
You don't have to say a word
Every time you look at me
I can see it all in your eyes

Well I know you put a spell on me
How you make me think about you all the time
I can almost hear your voice
Even though you're far away
I can feel you right by my side

I can read your mind
What you want me to do
Darlin' deep in your heart
I see the truth

Now I know you got the magic touch
When you hold me now I can see the truth
All the secrets of the heart
You can't hide them any more
I can feel the power in you

I can read your mind
What you want me to do
Darlin' deep in your heart
I see the truth
I can read your mind
What you want me to be
To keep our love alive, you must be willing to believe
In a love that will last
And I know you realize
I can see it in your eyes
Now our love will never die
I can read your mind
