

# The Doobie Brothers, Spirit

Tom Johnston

Freedom don't come easy, babe  
When your spirit's flyin' up among the clouds  
And when you're faced with the wise man's road  
You gotta know where to go  
Sun and the stars are a travelin' man's companion  
Leadin' the way for his journey  
East and west, wherever you go, mm

Leadin' the way  
The first to come  
Showin' the way for his children  
Now it's up to you  
Do you know you're pullin' through  
Man, it's not easy and you know it  
Children in a happy place  
They're always smiling  
Showin' all their love with no deception  
Treatin' each other like brothers and sisters do, yeah, yeah  
Children in a real good place, they're always tryin'  
Jumpin' and playin' in the middle of the afternoon  
Just havin' a ball, don't worry at all, yeah

Leadin' the way  
The first to come  
Showin' the way for his children  
Now it's up to you  
Do you know you're pullin' through  
Man, it's not easy and you know it  
Children in a happy place  
They're always smiling  
Showin' all their love with no deception  
Treatin' each other like brothers and sisters do, yeah, yeah  
Children in a real good place, they're always tryin'  
Jumpin' and playin' in the middle of the afternoon  
Just havin' a ball, don't worry at all, yeah
