

The Doobie Brothers, Wheels Of Fortune

Patrick Simmons / Jeffrey Baxter / John Hartman

Caught up in wheels of fortune while you've been asleep
Come on, give it up, you got what's comin' to you
No use for you to struggle, now you're in too deep
It's gonna be a long, long time before it's through

Changin' wheels of fortune
Drivin' us on and on
Winnin', sometimes losin'
As soon as it's here it's gone
I'm so tired of losin'
But I still play the game
And I know there's no reason
Still I go on searchin' just the same

Well, I've kicked around your city
Seen your vanity
Mister Society, can you hear me
You get your satisfaction and you cover all the action
But your loaded dice won't help you in the end

Changin' wheels of fortune
Drivin' us on and on
Winnin', sometimes losin'
As soon as it's here it's gone
I'm so tired of losin'
But I still play the game
And I know there's no reason
Still I go on searchin' just the same
