

The Draft, Wired

I got a secret for you
if you're about to lose your mind
it is fine
and if you're feeling stranded here
then you're just feeling like us all
it's your call

We're covered with dust
and everything here
is starting to play tricks with you minds
but it's fine if the ground seems unsteady
it can be too solid sometimes
it is fine

It's been so long
spin me round
we're holding on tight
but we just keep falling down

Wired
Wired
I cough when I breathe
shake everytime that I leave this town
Wired
