

The Duprees, Love Eyes

(Love eyes) I'll always love you
(Love eyes) I'll always love you
Love eyes
You've got those dreamy kind of love eyes
Eyes that set my heart on fire
You're my one desire
Love eyes
You've got those thrilling willing love eyes
Eyes that hold me then they scold me
Must I go insane
When there is only heaven between us
I could be Mars, you could be Venus
High up above with nothing to do
But love
Love eyes
Don't drive me frantic with your love eyes
So please don't try to deny me
Love eyes, I'll always love you
(Love eyes) I'll always love you...
