The Exies, Kickout

Forget myself
on your command
To find you here
from where I stand
To lose myself in you so

I'll kick out
I'll kick out
before you cage me
I'll shut down
I'll shut down
till someone saves me
Cause I don't know how much more that I can take
I'll kick out
I'll kick out
before you cage me

I curse the wars
for weeks on end
If someones there
won't you sound for her
Before I run away!

I'll kick out
I'll kick out
before you cage me
I'll shut down
I'll shut down
till someone saves me
Cause I don't know how much more that I can take
I'll kick out
I'll kick out
before you cage me

I won't be around for you to drag me down!

I'll kick out
I'll kick out
before you cage me
I'll shut down
I'll shut down
till someone saves me
I'll kick out
I'll kick out
Before you cage me!
Before you cage me!
Before you cage me!
