

The Exploited, Army Style

Detailed for a firing party
An enemy of the states is going to be killed
The firing squads are dressed to kill
Duty first and they're well drilled
Army style
Army style
Army style
And they're dressed to kill
Questions pound my head
Why should we take part in another man's death
One way thinkers possessed and trapped
Caught in a system where you can't answer back
Army style
Army style
Army style
And they're dressed to kill
