

# The Exploited, Attack

Sitting in my room at night  
Feeling half dead  
A dog two blocks away or more  
Is howling in my head  
My mind is getting dangerous  
My body feels like lead  
Icy horrors hit me, send shivers to my head  
Attack attack  
You can't fight back  
Attack attack  
An enemy you can't find  
An enemy you can't find  
Throat can't talk legs won't walk  
Rooted am deaf and dumb  
Terror rising in my gut  
Makes my brain go numb  
Something's creeping round the door  
Something filled with threat  
I bite a hole right through my lip  
My back is trickling sweat  
I taste blood inside my mouth  
Am choking on the bile  
I want to burst right out of here  
I want to run a mile  
The sickness of the city  
Is spreading thru the night  
Someone else is screaming  
To be let out for the night
