

The Exploited, Drive Me Insane

They're trying to drive me
Drive me insane
They make my life so fucking mundane
Turn over a car
Turn over a flat
Uncaring rich bastards
Can only push me so far
They're driving
Me completely insane
They're driving
Us completely insane
No shame on their faces
No pity or care
They live on the riches
While the country stripped bare
Trident protects them
Their possessions not us
They tax all the people
They make you pay up
Me completely insane
They're driving
Us completely insane
File your life
From birth to death
Stuff their rules down your throat
They think they know best
You try to ignore them they wont go away
Step out of line
And they'll lock you away
Me completely insane
They're driving
Us completely insane
