

# The Exploited, Lie To Me

Vote for me is what they say  
But what have you done for me  
They'll tell you fucking anything  
A vote is what they want from me

[Chorus]

They lie to you  
They lie to me  
They lie to you they lie to me  
What can you fucking say  
Shake my hand kiss my arse  
What do you want from me  
Different partys different views  
It's all the fucking same to me  
They lie to you they lie to me  
They lie to you they lie to me  
What can you fucking say

[Vocal break]

They lie to you they lie to me [x4]  
A load of wank is what I hear  
When you preach to me  
Every fucking policy  
It's all just shit to me  
They lie to you they lie to me [x6]  
What can you fucking say
