

# The Faint, Get Seduced

Tabloid magazines are made in hell  
The falling stars are getting sucked down  
We get seduced, easy  
We get  
We get seduced!

Sell us magazines about the stars  
And watch us stare into the void  
What not to wear to the awards  
Who's tit escaped on camera  
Now these creeps are climbing up the trees  
The neighbors calling the police  
And snapping pictures by the pool  
We get seduced so easy

Check out clerks all thumbing toward the page,  
"An A-list starlet shaved her brains"  
While starving millionaires complain  
TV makes your ass fat

Tell us!  
How rad is it living in a microscope?  
Broadcast into every single living room  
Hot lights on your love life  
Let me buy  
Close up tabloid shots of your cellulite

Hypnotizing pages of advice  
From their demented fashion do's or dies

Who put this hook inside my mouth...you  
Your getting so obsesed its all we talk about  
Were gossip hounds on the couch

How rad is it living in a microscope?  
Broadcast into every single living room  
Hot lights on your love life  
It's not love thats sex on the first night

How rad is it living in a microscope?  
Broadcast into every single living room  
Hot lights on your love life
