

# The Faint, Take Me To The Hospital

Hold my hand its shakin' bad  
I'm going to the doc  
I pay him he'll fix me up  
I think I've got enough  
Ambulance no costs to much  
We'll take a van  
If they can't fix me no one can  
If they can't fix it no one can

Want you to take me to the H,  
Take me to the O,  
Want you to take me to the S,  
Take me to the P,  
Want you to take me to the I- T- A- L.  
Want you to take me to hospital  
HOSPITAL

Now I'm losing blood from my veins  
They're slowly emptying  
I'm bothered by this crimson red  
To the color of blood  
To the color of a B  
The color of a L  
To the color of a O  
The color of O  
To the color of a Deep  
Crimson red  
From a little bitty accident  
ACCIDENT

I scraped up my face  
Bounced my cheek on the floor  
'cause anything worth doing  
Is worth getting hurt for  
I've made no mistakes  
I'm never learning from that  
I got no regrets  
I wanna do it again  
Do it A -G- A- I- N

So you can take me to the H,  
Take me to the O,  
Want you to take me to the S,  
Take me to the P,  
Want you to take me to the I- T- A- L.  
Want you to take me to hospital

'cause its the color of a B  
The color of a L  
To the color of O  
The color of O  
To the color of a Deep  
Crimson red  
From a little bitty accident

You better take me to the H,  
Take me to the O,  
Want you to take me to the S,  
Take me to the P,  
Want you to take me to the I- T- A- L.  
Want you to take me to hospital
