

# The Faint, The Passives

Left eye spins in circles  
Passives line the rail  
They get no satisfaction  
From the electro-static breaks  
A beat can't cut the passives loose  
They're afraid what we will say  
No harm is done when you try it then hide  
Parts moving - keep moving

A cool collected life is a safe move  
You heard that  
You're unsure but it's clear to us  
Come to terms, you're alone here observing  
Every time you go out you observe

Walk past collared passives  
Don't look toward their eyes  
It adds to their discomfort  
Shows there's some confidence they miss

A cool collected life is a safe move  
You heard that  
You're unsure but it's clear to us  
Come to terms, you're alone here observing  
Every time you go out you observe
