

# The Fall, Ladybird (Green Grass)

And there's a big concert going down in this town  
People cannot see society had broken down  
I sat upon the green grass but it just brought me down  
And the wife said 'get up' and it just brought me round

Fly ladybird, get right outta town  
Use your transparent wings  
Ladybird fly, fly ladybird

Green grass was purple black and speckled all around  
Round the ring, this Croat town  
The gas was obnoxious  
It made me settle down, so I sat down  
And the guy said 'get up' and it just brought me down

Fly ladybird, ladybird flee  
Get right outta town, use your transparent wings  
Above the leaping flames, get right outta here  
Flee ladybird, ladybird fly

Pomerania is burning down.  
Your family is gone, shot dead  
Get right out of it  
See the epaulette  
Death: to let

Small change attached  
I thought it was there but it just brought me down  
Ripped the magazine open, it brought me round  
Green grass was clear in the boundary zone  
Grass faded into Wimpy brick in the ground

Mother's somewhere in Pomerania, but Pomerania is burning down  
Ein kleine meisterwork, settled in my bones  
Fly! Fly ladybird  
Get right off the ground  
Use your transparent wings  
Get right outta here
