

# The Fall, Winter (Hostel-Maxi)

On the first floor of the dryout house  
Was a replica dartboard  
And the man on the floor  
Sorta went out of window, over the lawn  
And round to the mad kid  
&quot;Please take this medallion,  
Please wear this medallion.  
It's no sign of authority.  
Wear the gold and put it on&quot;

(Winter)  
So (around the) mad kid  
Man on the first floor said  
&quot;I just looked round  
I just looked round  
I just looked round  
&quot;And my youth it was sold&quot;  
Two white words frost the sky  
There fly krakens  
And sometimes, that little.....  
Makes me tremble

The mad kid had 4 lights, the average is 2.5 lights  
The mediocre has 2 lights, the sign of genius is three lights  
There's one light left, that's the one light  
That's the science law
