

The Falls, Girl That I Love

There's The Girl That I Love
There's The Girl that makes me mad as hell
There's The woman I want
There's The woman that makes me wanna run away from it all

Happiness
More or less
Got a do with what you got
What you still waiting for
Not, not waiting for you any more
And I guess
I was left on a step on a stairway to a higher place
And it's time to climb again
So it goes
If we know
What we know now then
We'll be so far gone

There's The Girl That I Love
There's The Girl that makes me mad as hell
There's The woman I want
There's The woman that makes me wanna run away from it all

Here we go like a roller-coaster
You Gonna take me up
You Gonna take me down
Here we go like a roller-coaster
You Gonna take me run again
