

The Features, Exhibit A

I know you think it's funny
When I speak sweet to you
So laugh all you want to, honey
But what I say is true

If you take a look inside my heart you'll find a little fire
Observe the potential it displays
Notice from time to time the flames will climb even higher
I present to you Exhibit A

This ain't no secret mission
I tell you what I plan to do
I know you have suspicions
So I'll prove my love to you

If you take a look inside my heart you'll find a little fire
Observe the potential it displays
Notice from time to time the flames will climb even higher
I present to you Exhibit A
