

# The Features, Exhibit A

I know you think it's funny  
When I speak sweet to you  
So laugh all you want to, honey  
But what I say is true

If you take a look inside my heart you'll find a little fire  
Observe the potential it displays  
Notice from time to time the flames will climb even higher  
I present to you Exhibit A

This ain't no secret mission  
I tell you what I plan to do  
I know you have suspicions  
So I'll prove my love to you

If you take a look inside my heart you'll find a little fire  
Observe the potential it displays  
Notice from time to time the flames will climb even higher  
I present to you Exhibit A
