

The Features, Leave It All Behind

I've been thinking about the trouble
We've got troubles, that's not easy to hide
It's just a minor complication
In relation to the natural kind

I think it's time to get away from here, away from here
Leave all our troubles far behind
Move to the country where the coast is clear, the coast is clear
Someplace the sun will always shine

And, we'll be on our way, whoa
In your arms to stay, whoa
Leave it all behind, whoa

There's no need to second guess
When our love's put to the test we will find
It's just a minor complication
In relation to the natural kind

I think it's time to get away from here, away from here
Leave all our troubles far behind
Head to the country where the coast is clear, the coast is clear
Someplace the sun will always shine

And, we'll be on our way, whoa
In your arms to stay, whoa
Leave it all behind, whoa

And, we'll be on our way, whoa
In your arms to stay, whoa
And, we'll be on our way, whoa
Leave it all behind, whoa
