

# The Feeling, Connor

You found a way  
To change the world  
The simple gift for  
Every boy and girl  
Always a piece  
For everyone  
You showed them all that  
Giving can be fun  
Giving can be fun

## CHORUS

Connor  
You got the life I want  
Connor  
I got it all so wrong  
You'll never know  
Connor  
You got the life I want  
You got the life I want  
You got the life I want  
Connor

Those poisoned pills  
We passed them round  
They made us heavy  
Pulled us to the ground  
But you were built  
From beams of sun  
Naive and unaffected by  
A world that's come undone  
Oh what can be done?

## REPEAT CHORUS

Connor  
You got the life I want  
Connor  
I got every thing wrong  
You'll never know  
Connor  
You got the life I want  
You got the life I want  
You got the life I want  
Connor
