

The Firm, Closer

Feeling good
Even though you give me fever
Feeling good
Girl you make me shake and shiver
I get a burning feeling
Flames are getting higher and higher
You got my senses reeling
Come on closer

When you hold me tight
I feel my body slipping under
Lightning strikes
Hits me and I feel the thunder
I get a burning feeling
Flames are getting higher and higher
You got my senses reeling
Come on closer now baby

There's a mighty power
Rising like a morning sun
It's a power of love
Baby and it's you I want
I get a burning feeling
Flames are getting higher and higher
You got my senses reeling

Feeling good
Even though you give me fever
Feeling good
Though you make me shake and shiver
I get a burning feeling
Flames are getting higher and higher
You got my senses reeling
Come on closer
Oh yeah...

Flames are getting higher and higher
You got my senses reeling
Come on closer now baby
Just a little bit closer now
