

The Flaming Lips, Goin' On

We hold our breath 'till the morning comes
and at last the sun shines through
but the night's so hard that it seems impossible
But what else can we do...

Goin' on--Uh huh

Listen you'll hear it
We're gettin' near it
It's comin' I can feel it
'Cause I know you(re goin' away

Listen you'll hear it
We're gettin' near it
I know I really fear it
but we pretend it's just another day

Goin' on--Uh huh

We tell ourselves it's all just normal
'Til the worst of it is gone
And then you give up and you give out
And you just cant take it
How do we keep going on?
