

The Flaming Lips, Hit Me Like You Did The First Time

Go, people wanna know
All the pleasures of
I've got my favorite place
You know just what to say
Hit me like the first time

All of your friends go there
They're not like me
I got my favorite place
You know just what to say
Kill me like you did the first time

Come on now (3x)
Hit me like the first time

Mount this heavy snow
It's warm like a winter coat
That's my favorite place
'cause you know just what to say
Kiss me like you did the first time

Come on now (8x)
