

The Fold, Going For My Lungs

You held me closer than you ever have before
And it's all that I can do to try to be everything you need
I'm sorry if it seems that I have let you down
I thought that I was looking out for us

In the quietness of mind we both know it's true
I'm going for my lungs these days
I'm going for it now

On nights like these I wish I'd never left your side
You are beautiful dear (beautiful dear) beautiful tonight
I'm sorry if it seems that I have let you down
I thought that I was looking out for us

In the quietness of mind we both know it's true
I'm going for my lungs these days
I'm going for it now (going for it now)

Get out of my dreams, get into my arms
I miss that smile on your face (get out of my dreams)
I miss that smile on your face (get into my arms)
I miss that smile on your face (get out of my dreams)
I miss that smile on your face (get into my arms)

I am with you now
