

# The Four Lads, Enchanted Island

True love  
Is an enchanted island  
And we have found that island  
From which we'll never roam

We stand  
On an enchanted island  
A magic yours-and-mine land  
That we can call our home

If all around, we found  
A sea of faces  
I know your face is  
The only one I'd see

True love  
Is an enchanted island  
And we're upon that island  
Wherever we may be
