

# The Frames, Evergreen

My evergreen  
You are always gonna be  
No winter winds  
Can take you far from me  
These tides of time  
Have carved a few new lines  
Oh but they've never changed my mind

My evergreen  
Beside me you will be  
When all the world was cold and golden  
Your colours ceased to bleed

Oh my evergreen  
You are always gonna be, gonna be

Keep on, keep on  
Cause your season's gonna come  
When all these storms have passed and done  
This distance will be gone  
And I swear we will be one  
When this race has all been run

And I stole to see the hail  
Falling down in through your hair  
Through your hair

Oh my evergreen  
Oh you are always gonna be  
Oh my evergreen  
Oh you are always gonna be, gonna be
