

The Frames, People Get Ready

People all get ready
'Cause we're tearing down the stand
Rebuild what's gone unsteady
And see it through with newer hands
And what has gone between us
Is a lot, is a lot
And who'll be there to clean us
When you're not, when you're not

People all get ready
'Cause we're breaking down again
Rebuild what's gone unsteady
And see it through with wiser hands
And what has gone before us
Is a lot, is a lot
And who'll be there to ignore us
When you're not, when you're not

We have all the time in the world
To get it right, to get it right
We have all the love in the world
To set alight, to set alight

People all get ready
'Cause we're breaking down the bands
Rewrite what's gone already
And see it through with angry hands
And what has gone before us
Is a lot, is a lot
And who'll be there to ignore us
When you're not, when you're not

And we have all the time in the world
To get it right, to get it right
And we have all the love in the world
To set alight, to set alight
Just look up, just look up

And we have all the time in the world
To get it right, to get it right
And we have all the love in the world
To set alight, to set alight
Just look up, just look up

People all get ready
'Cause we're coming to a stop
