

# The Friday Night Boys, Superman (Save You)

I'm sure, I'm sure  
You cant get over, get over this  
The fire's burning in your eyes  
I'm only keeping you alive  
If I promise you  
Promise to never let go  
Would you come back to my room?  
Would you show me what to do?  
I could still save you  
I can't be superman  
And save you, save you  
You're falling way too fast to save  
I swear, I swear  
You'll let me down (let me down)  
But every second you're around  
You pick me right up off the ground  
If I promise you  
Promise to never let go  
Would you come back to my room?  
Would you show me what to do?  
I could still save you  
I can't be superman  
And save you, save you  
You're falling way too fast to save  
No one could help you now  
And make it out, make it out  
You're falling way too fast to save  
I'm sure, I'm sure  
You cant get over, get over this  
But in my eyes i'm keeping you alive  
I can't be superman  
And save you, save you  
You're falling way too fast to save  
No one could help you now  
And make it out, make it out  
You're falling way too fast to save  
You're falling way too fast to save
