

The Friday Night Boys, That's What She Said

In her room, the lights go out
I wonder if shell just let this go now
Just lock the door, and fall back down
Her body shakes so nervously
Take my hand, and let's just leave this party
I see her eyes all over me tonight
I'll walk you home
What would it take to let you go?
In your eyes, just give me a sign
Shes so scene, Hollywood dreams
Broken cuz shes no good at anything
Run around and around, make up your mind
I bet you strike out with her tonight
Shell look at you and swear shes true
What will moving to California do?
I know for sure shes lost her way
Youll be wrapped around her finger, too
Shes a little too much and a little too good for you
Hang on to every word she says, but never again
I'll walk you home
What would it take to let you go?
In your eyes, just give me a sign
Shes so scene, Hollywood dreams
Broken cuz shes no good at anything
Run around and around, make up your mind
I bet you strike out with her tonight
You cant deny
You can never catch her in a lie
If she brings you in her room, and you close the door
Youll be right where every guy has gone before
You cant deny
You can never catch her in a lie
If she brings you in her room, and you close the door
Youll be right where every guy has gone before
Shes so scene, Hollywood dreams
Broken cuz shes no good at anything
Run around and around, make up your mind...
Shes so scene, Hollywood dreams
Broken cuz shes no good at anything
Run around and around, make up your mind
I bet you strike out with her tonight
Shes so scene, Hollywood dreams
Broken cuz shes no good at anything
Run around and around, make up your mind
I bet you strike out with her tonight
I bet you strike out with her tonight
I bet you strike out with her tonight
