

# The Game, Let Me Know (Feat. Jeremih) / Addressing

Where the body cams at when they killed Sandra Bland though?  
Where the justice system at when the cops go Rambo?  
Black Lives matter when we talking about Philando  
But all Lives matter when we talking about Orlando  
49 dead bodies, 83 in France though  
They say "Alton had a gun",  
We ain't see it in his hands though  
We screaming "Fuck the police"  
But what about Dallas?  
All these murders on the news  
Every week it's another one, DJ Khaled  
How we gon' respect the badge if you don't protect and serve?  
They say life ain't a movie but it's feeling like The Purge  
And this rag in my pocket match the blood in the curb  
Hear the shots in the hood but can they feel it in the 'burbs?  
Turn on the news, get seduced by the words  
And the noose on the black man's neck sounds absurd  
Summer 16 look like more than a Drake song  
And that's just this year,  
Are you forgot about Trayvon?

Why it take 3 days for Obama to respond?  
Cause Minnesota 3 days from the White House lawn  
Trump and Hillary both cons  
Backstab us like the bullets on in back of LaQuan  
This ain't The Game, I come to you as Jayceon  
With both of my hands up,  
Don't shoot on my palms  
Tamir Rice was just a kid and unarmed  
Them cops was Cleveland fans,  
You just killed the next LeBron  
We just need a resolution  
When did being detained become a fuckin' execution?  
Turn on the news, my stomach turning to knots  
As the world keep turning, I'm about to turn into Pac  
I'm so determined, I promise to sing a sermon  
Every night a mother dreads like Busta in Higher Learnin'  
Candles burning so we marching up the blocks  
Moment of silence every time a body drops

When the killing gone stop?  
If they stop killing us will we stop killing cops?

Now tell me, can you stand up  
Knowing everybody can't stand us?  
Don't they know that hate is a cancer?  
Ask around, nobody got the answers  
Now, tell me, can you stand up?  
Knowing everybody can't stand us?  
Didn't know we was living in Orlando  
People dying with their hands up  
Now I hope the whole world  
Wake up, wake up, wake up  
Wake up, wake up, wake up  
Let me know  
Let me know  
Somebody let me know  
Wake up, wake up, wake up
