

# The Georgia Satellites, Almost Saturday Night / R

(John Fogerty)

Outside my window  
I can hear a radio  
and I know that motor wagon's  
gettin' ready to fly  
and it's almost Saturday night

bye bye tomorrow  
Jody's gone to a rodeo  
and I know some good ole boys  
gettin ready to ride  
and it's almost Saturday night

Gonna push the clouds away  
let the music have its way  
then steal your heart away  
and I know, I know it  
outside me ringin'  
the night train is bringing me home  
when you hear that locomotion  
gettin' ready to ride  
and it's almost Saturday night

outside me ringin'  
outside it's almost Saturday night  
well I like it, I like it, I like it, I like it,  
I li-li like it, I li-li like it,  
here we go, rockin' all over the world  
(repeat 4 times)
