

# The Glitter Band, Angel Face

You're a child of sweet sixteen  
Never made the big town scene  
Always loved to stay at home  
Never made it on your own

I see your picture  
what do I see  
The face of an angel  
Staring at me  
staring at me

Angel face  
angel face  
You've got the cutest angel face  
Angel face  
angel face  
I'm gonna make you my angel face

you don't know just what I mean  
You should be a beauty queen  
Got to get you ready fast  
Who knows how long your looks will last

Look in the mirror  
believe that it's true  
The face of an angel  
Is looking at you  
looking at you

Angel face
