

# The Glitter Band, Goodbye My Love

Darling please don't leave me now  
I need you more than ever;  
Don't be sad  
don't let me see you cry  
I'll love you  
love you forever:  
Think of me when you are far away  
Think of me at least once ev'ry day.

I say good-bye my love good-bye my love  
Till we meet once again;  
Yes it's good-bye my love good-bye my love  
Say it's not the end.

Standing here in the departure lounge  
It's growing deep inside me;  
Wonder when  
I'll see the love I found  
Hoping that we were always meant to be:  
A million miles is just a breath away  
A million miles is just some words we say.

And it's goodbye my love . . .

Now they're calling it's time for you to go  
One more kiss before you're leaving  
Now you're boarding as they close the doors  
I hear the engines softly screaming:

They say goodbye my love . . .
