

# The Glitter Band, Let's Get Together Again

Let's get together again  
all you need is here to stay  
Let's get together again  
forget about your yesterdays.  
Let's get together again  
all you need is here to stay

Let's get together again  
forget about your yesterdays.

It's been a very long long time since I last remember seeing you  
I hope you'll write and say you're fine; did you ever sit and dream  
of a time when we could meet again it's very hard now you're not  
mine:

The 'phones right 'next to you and you know just what to do  
Just pick it up and call my name:

Let's get together again  
all you need is here to stay

...

Tomorrow's just a step away till I come running back to you.  
I hope you'll stay here by my side; I thought I'd never see  
My angel back here next to me. Promise me that you won't hide:  
The 'phones right next to you and you know just what to do

...

Let's get together again  
all you need is here to stay

...

And you know there ain't much time I'm so alone please come home  
I'm on my own let's get together again

All you need is here to stay

...
