

The Go Set, Coming Down

Once upon a time was a long time ago,
You were in the scene that I used to know
Remember running down to the mall,
Feeling like we could climb the walls
We were almost having fun, enemies with the sun
And at 6am when we're bored , we'll be coming around
Then when I see you, I know when you're coming down
What about the show last year in LA,
Like playing Sydney on a Tuesday
We were driving around till the morning,
Walking in the door and the day was dawning
Almost having fun, enemies with the sun
6am when we're bored , we'll be coming around
Then when I see you, I know when you're coming down
