## The Go Set, Sing Me A Song

If you sing me a song, you know I'll come running Whistle me that tune that brings a tear to my eye The past is now behind us, sing songs about the future Share a drink, smile a bit, my darling don't you cry And if you sing me a song, you know that I'll come running Whistle me the tune that brings a tear to my eye Money in our pockets, and food is on our table Stand up and talk straight, don't waste the time today Don't fall down, you will never get up Don't fall down, and if you sing me a song Sing a song of Revolution If you sing me a song, you know I'll come running Whistle me the tune from a childhood deprived The past is now a picture, those memories are golden We ain't got much, but its real, and our trouble is behind If you sing me a song, sing a song of revolution
