

The Golden Republic, She's So Cold

where did our love go?
i think you put it in the fire.
i think that you should know
you're the thing that i desire.

look at us now,
hanging around.
well, everybody's just looking at us
and saying...
oh, she's so cold.
oh, she's so cold.

i know she ain't so cold.

where did our love go?
yeah, i seen how you avoid it.
it seems like i should know
all the ways that i annoy you.

look at us now,
hanging around.
well, everybody's just looking at us
and saying...
oh, she's so cold.
oh, she's so cold.

i know she ain't so cold.
