

# The Golden Republic, She's So Cold

where did our love go?  
i think you put it in the fire.  
i think that you should know  
you're the thing that i desire.

look at us now,  
hanging around.  
well, everybody's just looking at us  
and saying...  
oh, she's so cold.  
oh, she's so cold.

i know she ain't so cold.

where did our love go?  
yeah, i seen how you avoid it.  
it seems like i should know  
all the ways that i annoy you.

look at us now,  
hanging around.  
well, everybody's just looking at us  
and saying...  
oh, she's so cold.  
oh, she's so cold.

i know she ain't so cold.
