

The Goo Goo Dolls, Know My Name

What kind of situation
Have I brought upon myself
Some kind of bad reaction
Blamed it all on someone else

Don't pretend like you know my name
Cause I ain't never seen you before

You got me laughing at me
Laughing all about myself
I had a drink last Friday
Heard the news from someone else

Don't pretend like you know my name
Cause I ain't never seen you before

You got me running
Running far from myself
You got me coming
Coming home to someone else

Don't pretend like you know my name
Cause I ain't never seen you before
Cause I ain't never seen you before
Don't pretend like you know my name
Cause I ain't never seen you before
